Online Education

1. Does all programs/courses were completed on time.	Yes
--	-----

2. Measures taken to complete the syllabus of courses and programs.

Measures taken to complete the syllabus of courses and programs. The COVID-19 pandemic has led to unprecedented uncertainty for Universities and institutions of higher learning throughout the country. As a result, teaching and assessment were shifted to completely online mode without wasting even a single day during lockdown period on first and second wave of Corona during the academic year. Some of the prospective students reconsidered their decision of enrolling in higher education due the alarming situation. One of the cause of concern for institutions has about enrollment and the unpredictability as to when campus life will resume.

The University engaged in a contingency plan to ensure educational continuity.

Some steps that have been taken as a response towards this include:

- Confidence building mechanisms aimed at the parents and the prospective candidates about the safety measures undertaken by the institution in terms of frequent sanitization of the campus, doctor on call, availability of sanitisers, contactless processes, regular check of staff members and students, compulsory wearing of masks, reminders regarding safety instructions to be followed. Thus, the University also envisages to provide insurance for students. *Guidelines regarding safety conduct for students at campus, which is made available at the website. The safety guidelines also comprise of content made available from WHO.
- Offered payment of fees through installments as income of parents could have been affected due to the pandemic. The University also waived off full tuition fee of the current students who lost either of their parents during Covid Pandemic.
- Ensured personalized learning experience to current students during the pandemic situation so that a clear positive message is carried out by them as brand ambassadors of the University. Faculty members were assigned small groups of students and the faculty members were required to be in constant touch and serve to clear any doubts/ requirements of the students. Hence communities of faculty, students and their parents were created to address concerns and difficulties.
- Student to student touchpoints were developed through the conduct of webinars wherein prospective students were in contact with current students and alumni to answer queries and concerns.
- Created Virtual engagement for prospective students offering all information online, virtual office hours wherein they could contact the staff, live video chats with faculty, engagement in social media with an ultimate aim of making them a part of the community.
- Online webinars by faculty on topics of interest and those that are in vogue so that prospective students realize the capabilities available and raise curiosity for deeper knowledge in the particular domain. This displays the University's unique value proposition in career preparedness of the prospective students.
- Ongoing training for all those involved in admission related work regarding answering Frequently Asked Questions, to be compassionate and polite with parents and students and be prepared to answer questions clearly.
- Conduct of the entire admission process through computer based and online mode such as entrance tests, video based interviews including whatsapp videos, online admission process for counseling and fee payment.
- Communication of plan of action regarding initiation of teaching through online mode for the initial months to the prospective students. The necessary technology platform including learning management system (LMS) has been developed to support conduct of high quality online content delivery and evaluation.

Teaching and Assessments Steps that have been taken to handle the Teaching and Assessments for current students include:

- Due to the outbreak and following government guidelines, the University suspended face to face teaching to protect health of students and staff. With its commitment to ensure that students complete their coursework in time and without disruptions, extensive use was made by implementation of in-house learning management system (Moodle based) as part of remote learning that was in practice for several years in the University. Alternatively, open source digital learning solutions were also utilized for conduct of live online teaching and learning. The concern regarding quality of educational instruction through online mode was dealt with regular training of the faculty members.
- Oral examination and viva were conducted through video conferencing mode.
- Blended tools were utilized for teaching and learning both for synchronous and asynchronous learning.
- Online tests (MCQ), written test (through emails), based on Blooms Taxonomy were conducted for students as part of the evaluation process. Contribution to the Local Community The university has contributed to society during these pandemic days by distributing groceries, foods, sanitizers, needy things to all the nearby poor family members. Offering our hostels for the quarantine purpose to covid affected peoples.

The University has also developed medical assistance robots, face masks, sanitizers etc for corona front line warriors and got first ranked in manufacturing category in AICTE Utkrishtha Sansthan Award 2020.

3. The period of delay in completion of syllabus (in months).

0

4. The period of delay in conducting exams (in months).
